All Around the World

How Do Movie Earnings Vary by Country?

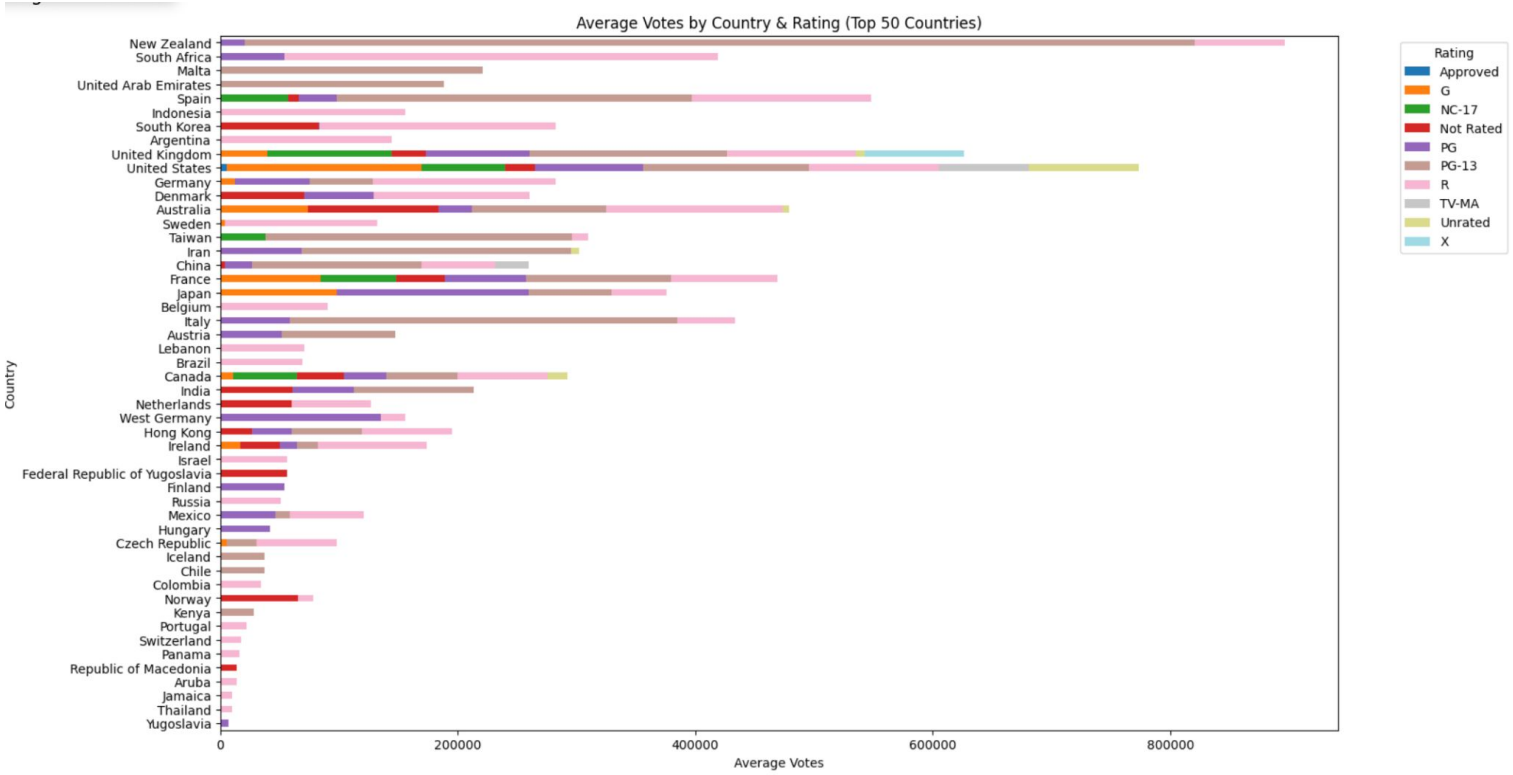

Which countries have the most popular movies?

Lead by New Zealand, Malta, United Arab Emirates, Brazil Indonesia,

What if we split them into different genres?

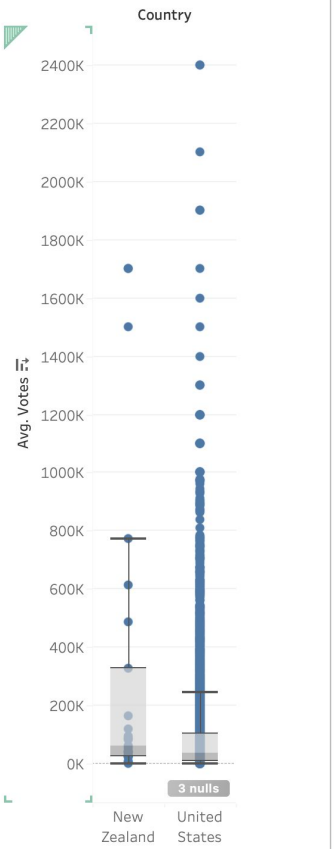

Sorted based on movies w/ highest average votes

It's clear which countries dominate which genres
- New Zealand dominates PG13, South Africa dominates R, Japan & West Germany dominates PG

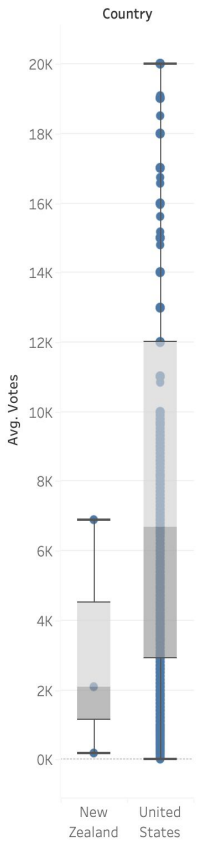

The countries with the longest bar graphs here have the most # of ratings

Does New Zealand *really* have the highest rated movies?

Votes by US & New Zealand

Votes by US & New Zealand (<20,000 votes)

Remember, we ranked them based on average # of votes, meaning that New Zealand has *highest average voting* based on the sample of movies

Ranking their movies based on average votes, we have #1 New Zealand & #6 United States

Looks like a country like US has a lot more movies in general

In the left: we see US w/ lots of highly voted movies

On the right: BUT proportionally, it also has more low voted movies, which dragged down its rating

⇒ US lower than NZ
